## **PREFACE**

The main objective of any computer science student is to get practical knowledge as possible. Being able to have a practical knowledge by developing a project is a lifetime experience. As practical knowledge is important as theoretical knowledge we are thankful of having a project.

Through the development of the project we had a great experience of various strategies that can be applied in development of the project. This project is the stepping stone for our career.

We are pleased to present this project report. Proper care has been taken while organizing the report so that it is easy to comprehend. Also, various software engineering concepts have been implemented.

## **ACKNOWLEDGEMENT**

We are student of BCA sem-5 Studying in the Kamani Science College, Amreli. We Thanks to the entire person who has given their support in shaping of the system.

We thanks to all our teacher's for giving us guidance and Co-operation in understanding the system. We also thanks them for their unconditional help in making of this project.

We have great deal of gratitude towards our Head Of Department who encourage us in taking up this activity. We thank all faculties and administrative staffs of the institute.

Thanks to ALL!!

**Dhara Dhorda**

**Rimpa Mondal**

## ABSTRACT

Our aim is to design and create a data management system for a “Car Rental” company. This enables admin can rent a car that can be used by a user by paying the money through COD. This system increases user retention and simplifies car and staff management in an efficient way.

This software “Car Rental” system has a very user friendly interface. Thus, the user will find it very easy to work on it. By using this system admin can manage their car booking, driver, registered user, etc. The car information can be added to the system. Existing car information can be edited or deleted too by admin. The payment transaction is done through COD. Thus, there is no delay in availability of any car information, whenever needed, car information can be captured very quickly and easily.

The people can also use the system to get a car rent. The people should register before logging in or he/she can log into our website with his/her created registration. Then he/she can view the available cars in a website and make a booking for a car. This website will be helpful to the admin as well as users also.

## **INTRODUCTION**

This project is design so as to be as a “Car Rental” website specialized in renting Cars to customer. It is an Online System through which customer's to View Available Cars, Register, View Profile and Book Car, etc.

1. People can Register and View Car.
2. Can Book Car as per their requirement.
3. Able to View their Profile and can update it.
4. Can cancel booking if they don't want the car.
5. Can view our site but cannot book car without Singing Up into our website.

## PROJECT PROFILE

- ❖ Project Name : Car Rental
- ❖ Developed By : Dhara Dhorda & Rimpa Mondal
- ❖ Front End Tool : PHP, HTML, JavaScript, Ajax
- ❖ Back End Tool : MySQL
- ❖ Operating System : Microsoft Windows 7
- ❖ Computer System : Pentium-IV or Higher,  
RAM: 256MB
- ❖ Project Detail : This site is about Renting Car for user comfort. They can Register, View Car & Driver, Book Car and can get our services.
- ❖ Compilation Time : 3 Month
- ❖ Guidance By : Mr. Ashish Vasavda
- ❖ Submitted By : Saurashtra University, Rajkot

## HARDWARE REQUIREMENT

- ✖ 512+ MB of RAM
- ✖ Multimedia Keyboard And Mouse
- ✖ 1.0+ GHz Processor
- ✖ Monitor
- ✖ 32X CD Drive

## SOFTWARE REQUIREMENT

- ✖ Operating System : Microsoft Windows 7
- ✖ Front End Tools : PHP, HTML, Ajax and JavaScript
- ✖ Back End Tools : MySQL
- ✖ Documentation Tools : Microsoft Word 2010
- ✖ Browser specification : Mozilla Firefox

## REQUIREMENT SPECIFICATION

✉ MySQL RDBMS used to maintain the all concerned data.

✉ Uses special views to display data.

✉ Display all types of data using classified reports with combinations of multiple tables.

✉ Special searching of Car in website.

✉ Controlling the information regarding whole website.

## PROBLEM DEFINITION

The problem in this website is that user can get and use a car for a specific or fixed period of time. It is helpful if you don't have your own personal car. This system increases customer retention and simplify car and staff management.

✉ Maintain Car List.

✉ Maintain User Registration.

✉ Maintain Car Booking.

✉ Maintain User Profile.

## **PROJECT PLANNING & SCHEDULING**

A “Car Rental” agency is a company that rent car for short period of time, generally ranging from few hours to few weeks. It is complemented by a website allowing online booking of car.

Before selecting this subject, we have found that online booking of car and to get it on time at our specified place is a difficult task. So, we try to make a project on Online Car Renting Website through which people can get and use our car and services for their need at their defined place and time. If they don't need our car they can also cancel their booking from our website. We hope this project will be helpful for the people and it will be easy for them to use our website and to get our car and services.

## SYSTEM ANALYSIS

System analysis is the process of identification of objectives and requirements, evaluation of alternative solutions and recommendation for a more feasible solution. In other words, system analysis is the step by step process of gathering, recording and interpreting facts. The main aim of analysis is to determine problem areas and to take solutions to reduce or eliminate them.

- ✖ System analysis itself breaks into two stages:

1. Preliminary analysis
2. Detailed analysis

During analysis, data are collected from the available files, decision points and transactions of the systems using various tools like Data Flow Diagram (DFD).

## **FEASIBILITY STUDY**

A purpose of feasibility study is to check out the possibility of a computerized solution to the organization's observed problem before very much money that has been spent on.

A feasibility study is carried out to select the best system that meets performance requirements. Only by spending the time to evaluate the feasibility do I reduce the chances for extreme embarrassment at later stage of the system project.

For the complete feasibility study I need to concentrate on following area:

They are of Three types:

1. Technical
2. Operational
3. Economical

➤ Technical :

Technical feasibility considers whether the desired project can be completed within the framework of available technology. As our project was website designing, this was not much of a problem, as many advanced web-editing tools are available.

➤ Operational :

Operational feasibility was done to assure that the product that would be developed would be used. Since a cards and gifts has to have a website of its own sooner or later, that wasn't much of a problem.

➤ Economical :

Our Commercial Website is Economically Feasible Because. We have developed this website only for one time. Only future enhancement is required on the other hand every client can view our site any time or many time as per their requirement. So the future economical expenses are null. So we can say that this website is totally economically feasible.

## PROJECT PAGE STRUCTURE

### ➤ Admin Side:

- Login

- About Us

## DATA DICTIONARY

One instance of Data Dictionary is a document describing a Database schema for users. In most basic case this documentation includes descriptions of tables and their columns. We can say it is a Set of Table. Data Dictionary can include various information about data, including relationship, constraints and rules, sources and usage, to name a few. This documentation is used by database users and developers to understand the data and its structures. It can be in form of simple document or special repository accessed by a dedicated tool.

- ✖ Data dictionary contains the following information:
  - Name of the table of Database.
  - User information such as Privileges.
  - Name and data-type of all columns in database table.
- ✖ Database Name: carrental.sql

➤ **Tables:**

**1. registration:**

Stores information related to registered user into our website.

Field	Type	Size	Attribute
r_id	Int	11	Primary key
Username	Varchar	15	Not null
Email	Varchar	50	Not null
Password	Varchar	15	Not null
contact_no	Int	10	Not null
Dob	Varchar	-	Not null
City	Varchar	15	Not null

**2. feedback :**

Stores information related to comment made by user to the website.

Field	Type	Size	Attribute
f_id	Int	11	Primary key
Name	Varchar	15	Not null
Email	Varchar	15	Not null
Message	Varchar	50	Not null

**3. city :**

Stores information related to city that user select to go using our car from our website.

Field	Type	Size	Attribute
c_id	Int	11	Primary key
Citynm	Varchar	50	Not null
Cdistance	Varchar	10	Not null

**4. booking :**

Stores information related to car booking made by user to the website.

Field	Type	Size	Attribute
b_id	Int	11	Primary key
V_id	Int	11	Not Null
Car_name	Varchar	25	Not null
Useremail	Varchar	20	Not null
pickup_point	Varchar	20	Not null
Pickup_time	Varchar	10	Not null
dropoff_point	Varchar	20	Not null
Cdistance	Varchar	10	Not null
Price_km	Varchar	50	Not null
Rate	Varchar	50	Not null
Fromdate	Varchar	-	Not null
Todate	Varchar	-	Not null
Message	Varchar	50	Not null

### **5. driver :**

Stores information related to available driver in our website.

Field	Type	Size	Attribute
d_id	Int	11	Primary key
Dname	Varchar	15	Not null
Dexp	Varchar	10	Not null
Dgender	Varchar	10	Not null
Image	Varchar	100	Not null

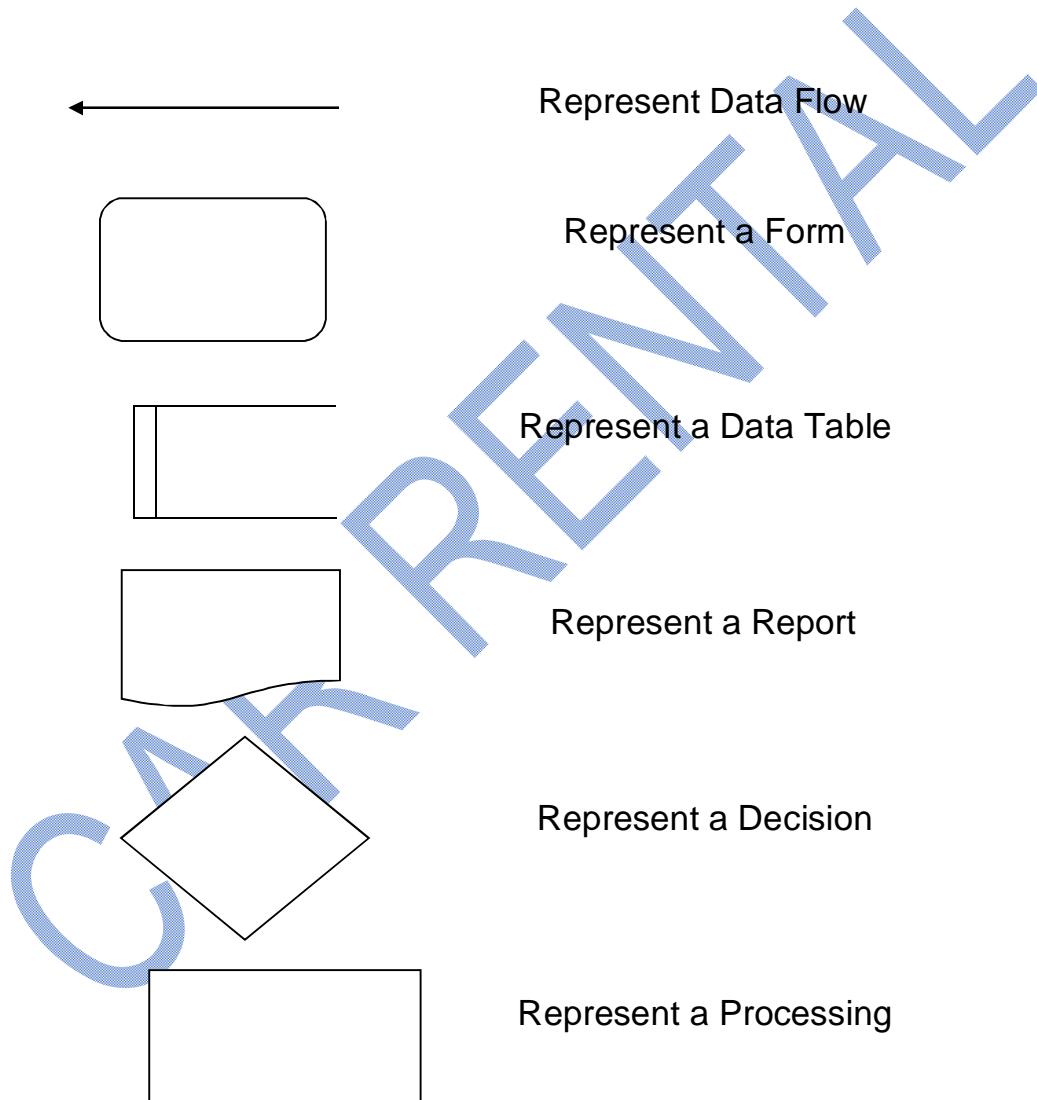

### **6. vehicles :**

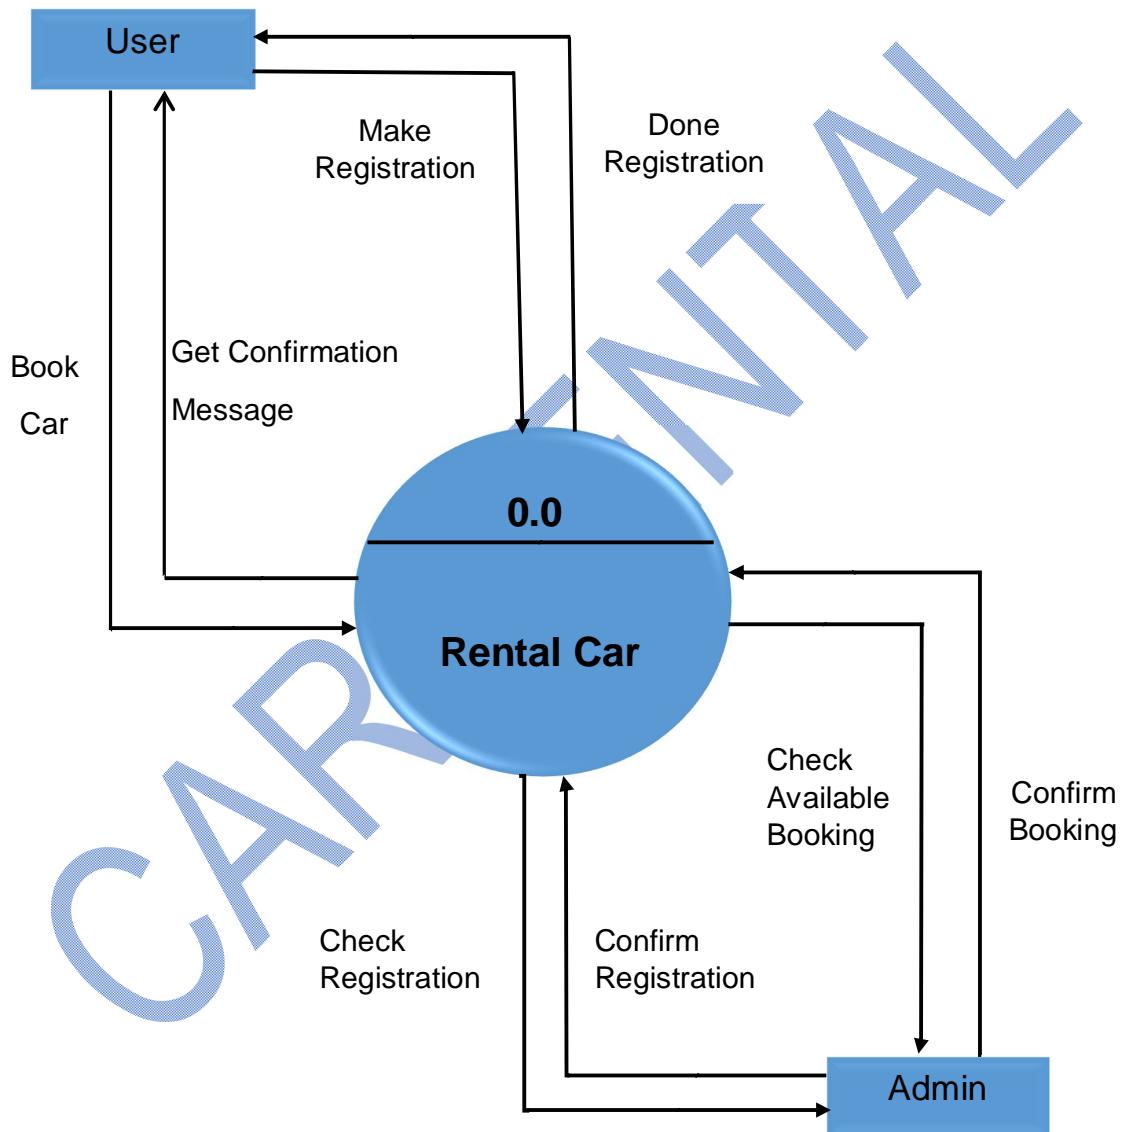

Stores information related to car added by admin into the website.

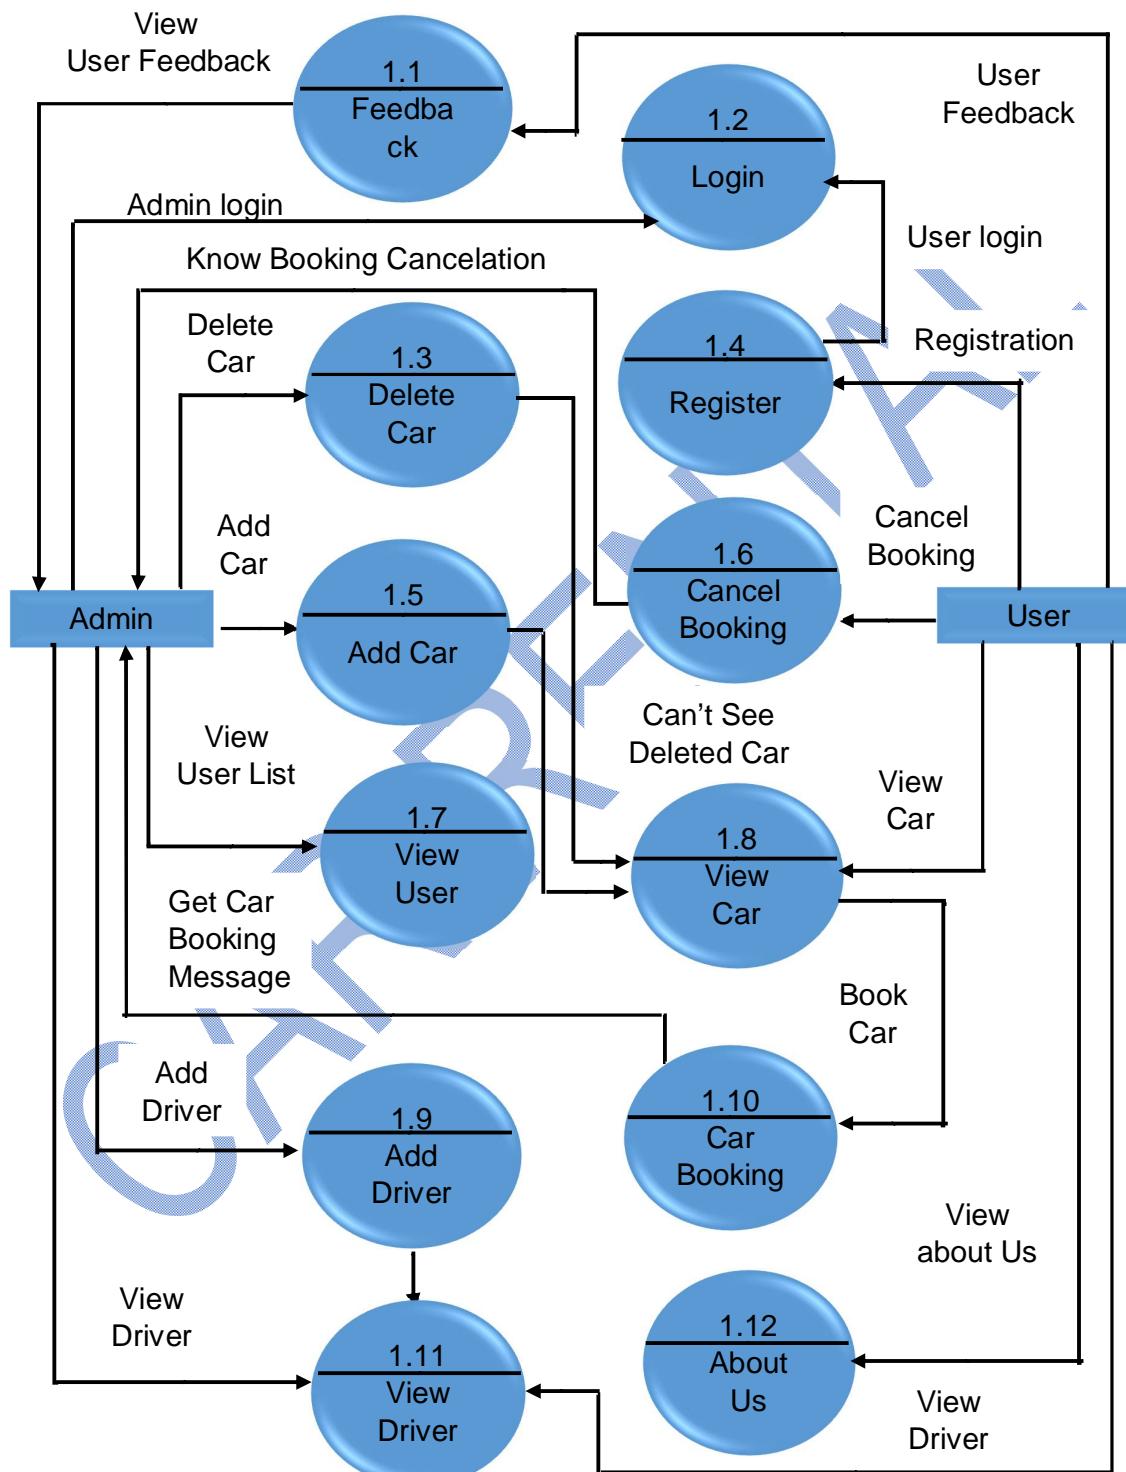

Field	Type	Size	Attribute
v_id	Int	11	Primary key
Carname	Varchar	15	Not null
Brand	Varchar	15	Not null
Price	Int	10	Not null
Fuel	Varchar	8	Not null
Seating	Int	11	Not null
air_condition	Varchar	5	Not null
central_locking	Varchar	5	Not null
Image	Varchar	100	Not null
car_no	Varchar	20	Not null

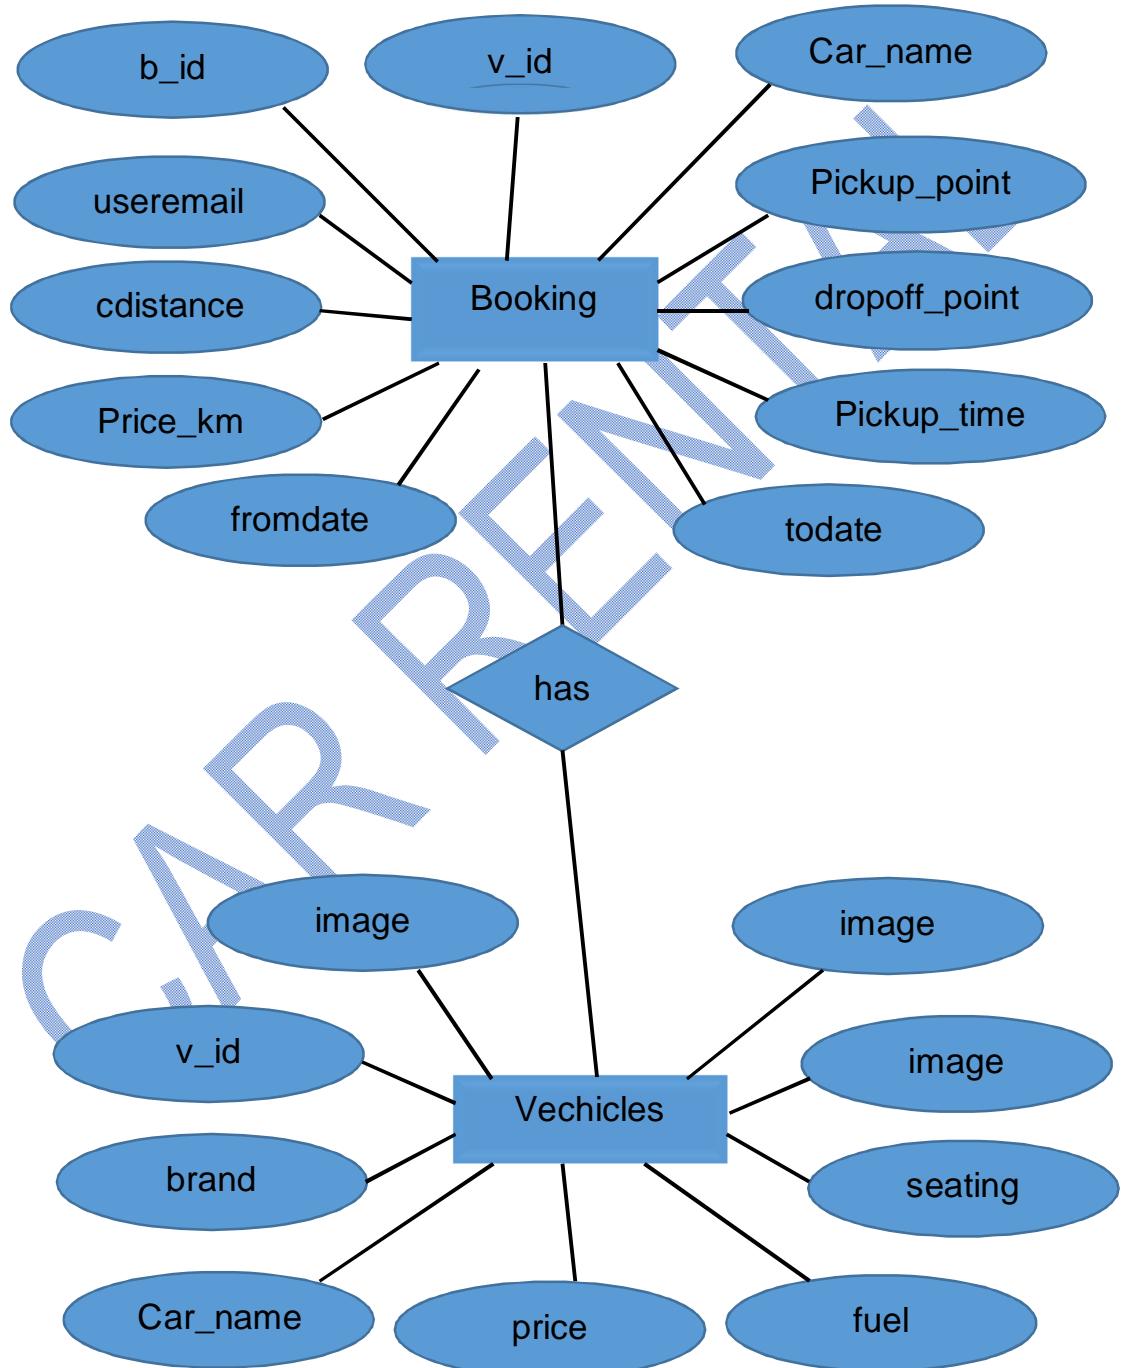

## DATA FLOW DIAGRAM

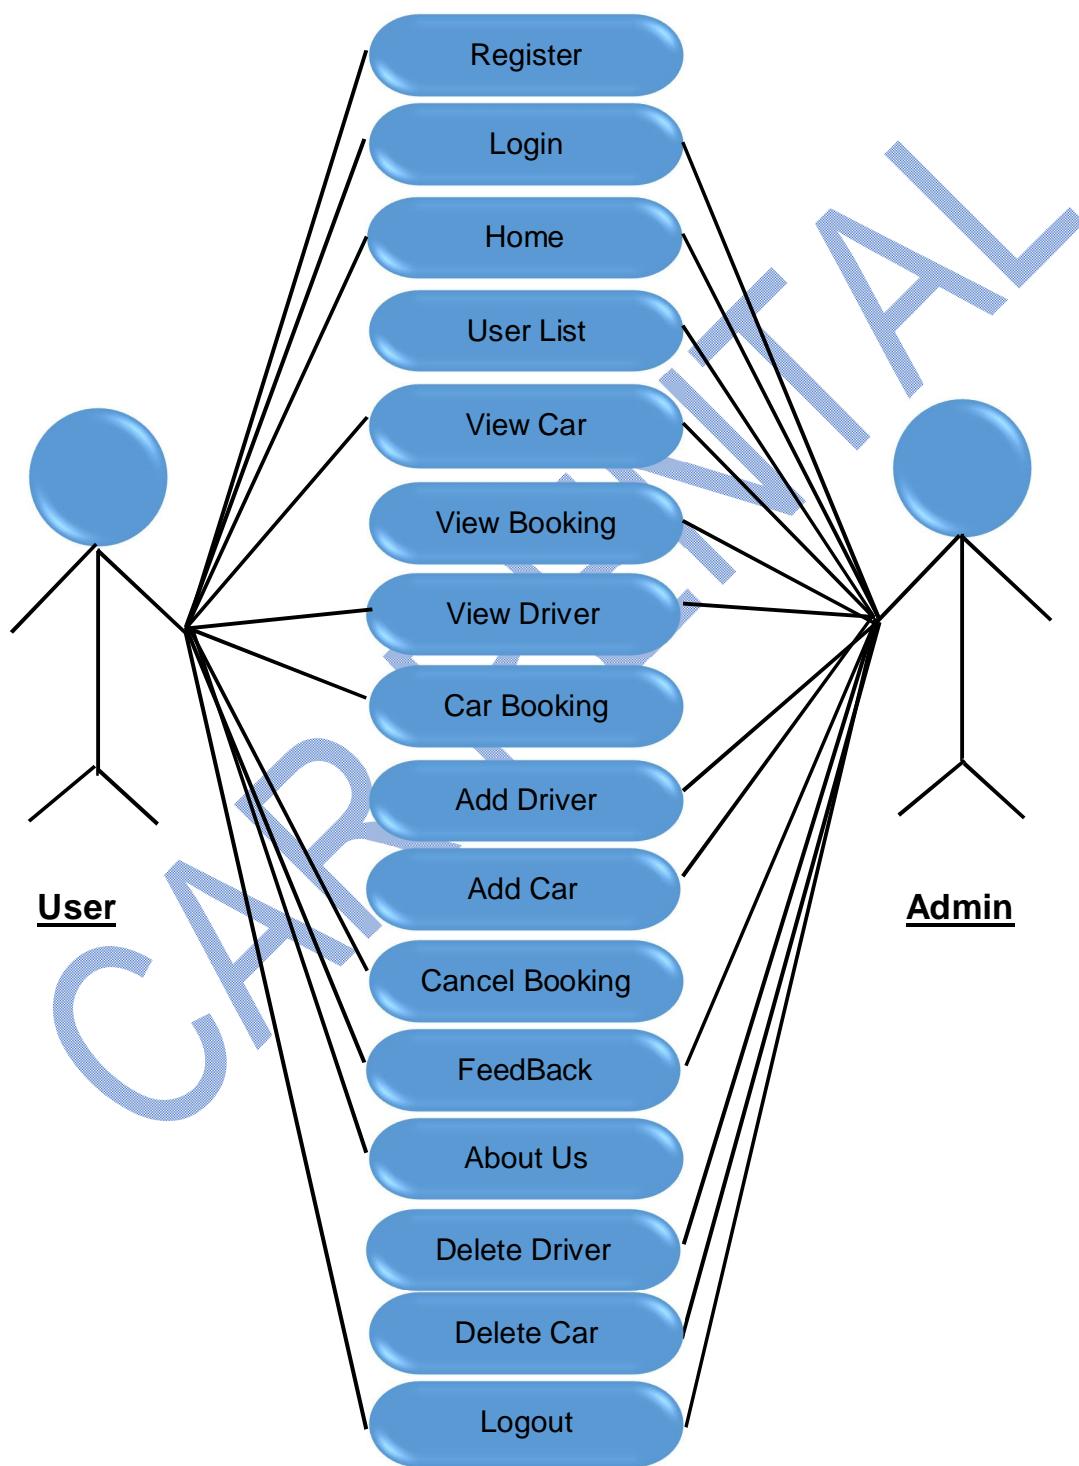

The DFD gives brief idea on how the designed system is working. It also suggests to us the type of users who using this system and the process involved in the system.

➤ User Feedback :

The screenshot shows the 'User Feedback' section of the RentalCars website. At the top, there's a navigation bar with links: HOME, USER LIST, VIEW BOOKING, USER FEEDBACK, VIEW CAR, DRIVER LIST, ADD DRIVERS, and ADD CAR. To the right of the navigation is a 'LOGOUT' button. Below the navigation, the main title 'User Feedback' is displayed prominently. Underneath the title, a breadcrumb navigation shows 'Home / User Feedback'. A form for submitting feedback is visible, with fields for 'User Name' (dhara dhorda), 'User Email' (dhara@gmail.com), and 'Message' (I like your website and i am satisfied with your services.). On the left side of the footer, there's a decorative vertical bar with colored squares (blue, yellow, green, orange, red, blue). The footer also contains a logo for 'Celebrating 25 YEARS' with a laurel wreath, links to 'Company' (About us, Contact), 'Customer Services' (Blog, Terms and Conditions), and contact information (1-800-123-4567, The Company Name Inc., j638+98 Nagnath Temple, Amreli, 365601). Social media links (f, t, G+, in) are located at the bottom right of the footer.

➤ User Profile :

The screenshot shows the 'User Profile' section of the RentalCars website. At the top, there's a navigation bar with links for HOME, CAR INFO, OUR DRIVERS, USER PROFILE, BOOKING PROFILE, FEEDBACK, ABOUT US, and an email address DHARA@GMAIL.COM. To the right of the navigation are social media icons for Facebook, Twitter, Google+, and LinkedIn, along with a 'LOGOUT' button. Below the navigation is a large title 'User Profile' and a breadcrumb trail 'Home / User Profile'. On the left side of the profile form is a vertical decorative bar with colored squares (blue, yellow, green, orange, red). The profile form itself contains fields for User Name (Dhorda Dhara), Contact No. (2147483647), DOB (11/22/1998), and City (mumbai). A blue 'UPDATE' button is located below these fields. At the bottom of the page, there's a footer with a '25 Years' anniversary logo, links for Company (About us, Contact), Customer Services (Blog, Terms and Conditions), and a phone number 1-800-123-4567. It also features links for Free cancellation, No credit card fees, and a 24/7 Call Center. The footer ends with copyright information (© 2017 | Privacy Policy | Rental policy) and social media links.

➤ Booking Profile :

The screenshot shows a booking profile page for a car rental service. At the top, there's a navigation bar with links for HOME, CAR INFO, OUR DRIVERS, USER PROFILE, BOOKING PROFILE, FEEDBACK, ABOUT US, and an email address RIMPA@GMAIL.COM. There are also social media links for Facebook, Twitter, Google+, and LinkedIn, along with a LOGOUT button.

## Booking Profile

Home / Booking Profile

Form fields for booking details:

- Car Name: Innova Crysta
- Pickup Time: 17:30
- Dropoff Point: Surat
- Distance: 471
- Price Per KM: 28
- Total Rent: 13188
- From Date: 09/13/2018
- To Date: 09/15/2018
- Message: I want to Rent this car...

A blue CANCEL button is located below the message field. At the bottom of the page, there are three promotional banners: "Free cancellation" (with a car key icon), "No credit card fees" (with a credit card icon), and "24/7 Call Center" (with a phone icon). The footer contains a logo for "Celebrating 25 YEARS" (with a laurel wreath), links for Company (About us, Contact), Customer Services (Blog, Terms and Conditions), and contact information (1-800-123-4567, The Company Name Inc., j638+98 Nagnath Temple, Amreli, 365601). Social media icons for Facebook, Twitter, Google+, and LinkedIn are also present in the footer.

➤ Feedback :

The screenshot shows the RentalCars website's feedback section. At the top, there's a navigation bar with links for HOME, CAR INFO, OUR DRIVERS, USER PROFILE, BOOKING PROFILE, FEEDBACK, ABOUT US, and an email address RIMPA@GMAIL.COM. On the right side of the header, there are social media icons for Facebook, Twitter, Google+, and LinkedIn, along with a 'LOGOUT' button. Below the header, the word 'FeedBack' is prominently displayed in a large, bold font. Underneath it, a smaller text says 'Home / FeedBack'. The main content area is currently empty, suggesting no feedback has been submitted.

This screenshot shows the 'Leave a Message' form on the RentalCars website. On the left, there's a vertical decorative bar with colored squares. The main title 'Leave a Message' is centered above two input fields: one for 'Your name' and one for 'E-mail'. Below these is a larger text area for 'Comment'. At the bottom of the form is a blue 'SEND MESSAGE' button. To the right of the form, there are social media sharing icons for Facebook, Twitter, Google+, and LinkedIn.

The screenshot shows the footer of the RentalCars website. It features three service highlights: 'Free cancellation' with a car icon, 'No credit card fees' with a credit card icon, and '24/7 Call Center' with a phone icon. Below these are several links: a '25 Years' anniversary logo, 'Company' (About us, Contact), 'Customer Services' (Blog, Terms and Conditions), and contact information ('1-800-123-4567', 'The Company Name Inc., J638+98 Nagnath Temple, Amreli, 365601'). At the very bottom, there are social media icons for Facebook, Twitter, Google+, and LinkedIn, along with a small copyright notice: '© 2017 | Privacy Policy | Rental policy'.

➤ About Us :

The screenshot shows the RentalCars website's navigation bar with links for HOME, CAR INFO, OUR DRIVERS, USER PROFILE, BOOKING PROFILE, FEEDBACK, and ABOUT US. It also features social media icons for Facebook, Twitter, Google+, and LinkedIn, along with LOGIN and REGISTRATION buttons.
